

## EXECUTIVE SUMMARY SHEET

**The College will function as a Charity, registered with the Charities Commission. It has also received registration from Companies House and is a Company Limited by Guarantee. No: 3820063**

Once established and having been registered and validated by all the relevant Boards and Bodies, **Shawndene Nursery Training College** will provide a high profile, two year training in Nursery Nursing for students of the right calibre. They will have satisfied the College authorities of their suitability by having the necessary academic qualifications; passed an internal entrance examination; been successful in two College interviews and able to confirm financial backing.

The College will also provide a Day Nursery for young babies and children 0-4/5 years.

National surveys and reports as well as our own market research over the past few years have shown an overwhelming need for a fourth private College.

Shawndene will stand uniquely as the only Christian Nursery Training College. A letter of commendation has been received from Baroness Cox, looking forward to the College's earliest inauguration. A letter of commendation has also been received from Sir Archie Hamilton.

On the successful completion of their two year training, students will be awarded the internationally recognised **Diploma in Child Care and Education** as validated by CACHE (Council for Awards for Children's Care and Education. Please refer to accompanying letter); **the Shawndene Diploma in Nursery Nursing**; an **NVQ Level 3 in Children's Care and Education**; a **Health and Safety Certificate in First Aid**; a **certificate in Food Hygiene**, awarded by **RIPHH** (Royal Institute of Public Health and Hygiene). Following three successful, consecutive years post graduation in relevant employment, all students will be eligible to apply for their **Shawndene Medallion**.

All staff appointed will hold appropriate, recognised qualifications with excellent references and will be totally committed to the College, its ethos and the principles upon which it is based.
